About ITMU at IASRI

As per the 'ICAR Guidelines for Intellectual Property Management and Technology Transfer/ Commercialization' an Institute Technology Management Unit (ITMU; short title for Intellectual Property Management and Technology Transfer Commercialization Unit at Institute level IPM&TTU) for management of its IP/ Deemed IP and transfer/commercialization of technologies has been constituted for pursuing all IP protection, maintenance and transfer/commercialization related matters at the institute level as per these guidelines and any other administrative or policy decisions taken in the ICAR from time to time. This will seek any specific, case-to-case basis advice/assistance from the Zonal Agro-Technology Management Centres (ZTMCs) at the zonal level.

Saleable technology

Saleable Technology

These saleable technologies are mainly softwares, which are used in agricultural domain and the technologies could be purchased as a helping tool to solve out various purposes in the field of agriculture. The technologies details are as given below:

[SPAR 2.0: Statistical Package for Agricultural Research data analysis \(SPAR 2.0\)](#)

(Works better on Windows XP)

1. SPAR 2.0 is useful for the analysis of experimental research data in Plant Breeding and Genetics.
2. The package consists of eight modules (i) Data Management (ii) Descriptive Statistics (iii) Estimation of Breeding values (iv) Correlation and Regression Analysis (v) Variance and Covariance Components Estimation (vi) Stability Analysis (vii) Multivariate Analysis (viii) Mating Design Analysis.

[How to purchase](#)

[SPAD: Statistical Package for Augmented Designs \(SPAD\)](#)

(Works better on Windows XP/Vista/7)

1. SPAD is useful for designing agricultural experiments conducted for comparing existing practices / check varieties, called controls, with new practices / varieties / germplasm collections, called tests, where the experimental material for the tests is limited and it is not possible to replicate them in the design.

Specific Issues

Issues:

- *The Copyright applications are now taking very long time at the initial stage.*
- *The Copyright applications are repeatedly being returned by Copyright office with number of minor queries and thus being delayed a lot.*

Proposed future targets for 2024-25

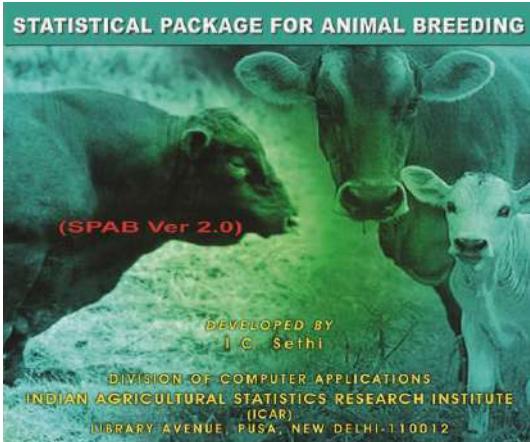

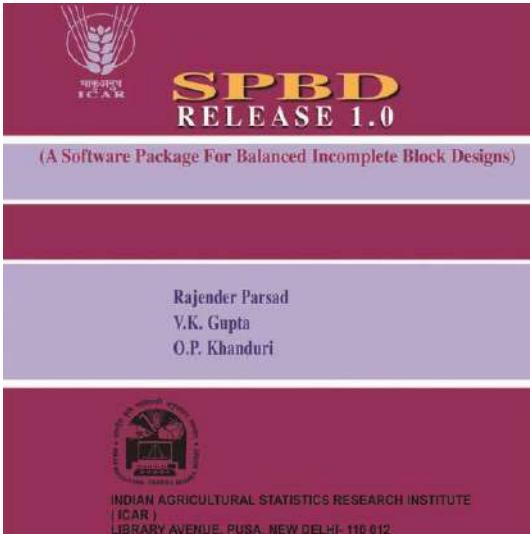

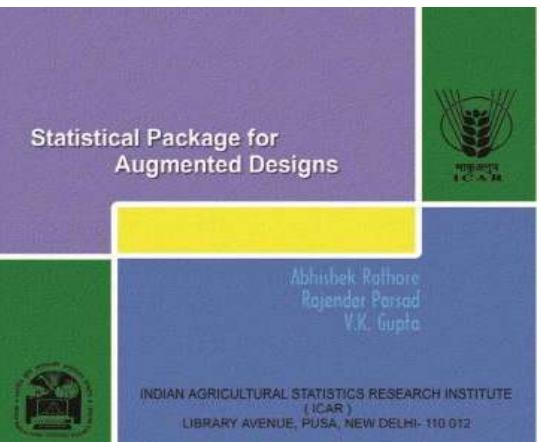

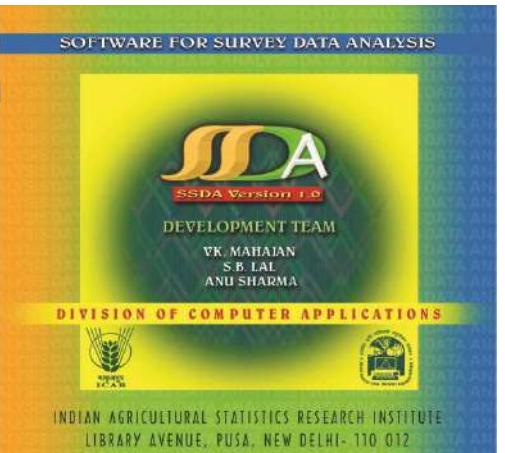

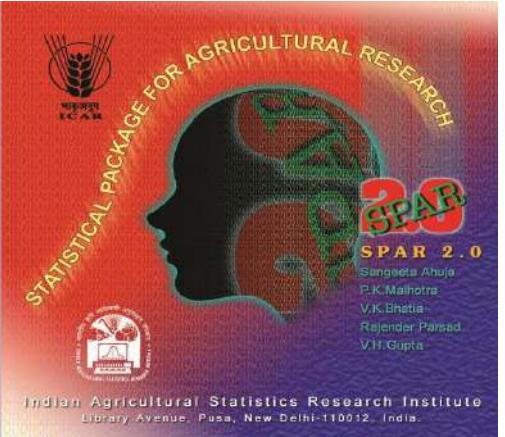

- **To acquire Copyrights for new products/software (Fourteen)**
- **Sensitization Workshop on IPRs/Copyrights for faculty and students (Two)**
- **Conducting sponsored Training Programs (Two)**
- **Undertaking Consultancy/Contract research projects (Two)**
- **Preparing Licensing Proposal for Academic Management System and other Informatics Tools**
- **Strengthening KRISHI-IPR Repository**

Sale of statistical Packages: 2018 to 31-12-2023

No. of Licenses sold: 43

Resource generation: Rs 72,500/-

1. Go to <https://krishi.icar.gov.in/icaripdb/>
2. Login with KRISHI Nodal email (krishi.xxxxx@icar.gov.in) or ITMU email (itmu.xxxxx@icar.gov.in)
3. Go to **Kno List** -> (Choose any of one: Patents/Copyrights/Variety Registration)
-> Click on **Accepted**
4. Display of all Patents/Copyrights/Variety Registration list
5. Click on **View** to check details of submitted data.
6. For making corrections, click on **Update**
7. Do not press “Final Submission” on Preview Page during update of information of already Approved patents/copyrights/variety registration, otherwise it’s again in workflow for Review steps. In case “Final Submission” option is used, then it will again go under workflow and need to be approved.
8. For Approving of complete submitted data, Go to **Take-Task** -> (Choose any of one: Patents/Copyrights/Variety Registration) -> Click on **Accept**

ICAR-IPR Repository

(Agricultural Knowledge Resources and Information System Hub for Innovations)

(An initiative of Indian Council of Agricultural Research)

<https://krishi.icar.gov.in/icaripdb>

ICAR established a three-tier intellectual property (IP) management system in 2006 to manage the intellectual assets, whereby each institute is equipped with knowledge, manpower and freedom of decision, which is governed by its "Guidelines for Intellectual Property Management and Technology Transfer/Commercialization" (ICAR 2006- which is again revised in 2018). To institutionalize this system, ICAR had also launched a scheme in its XI plan budget, which completed 5 years in 2012. Under this system, Institute Technology Management Units (ITMUs) headed by scientific personnel, were formed at all ICAR institutes. To facilitate these ITMUs, five Zonal Technology Management Centres (ZTMCs) were opened in different zones for technology protection, promotion and commercialization. At central level, Intellectual Property and Technology Management (IP&TM) Unit is leading this system by providing budget, technical support in case to case basis and assistance for IP related legal issues. Based on the encouraging lessons learnt during the XI Plan, the scope in the proposed XII Plan scheme is considerably enhanced.

The enhanced scope is thus given the new name, 'National Agriculture Innovation Fund' with two components viz. Component I: Innovation Fund (the XI Plan Scheme of Intellectual Property Management and Transfer/Commercialization of Agricultural Technologies); and Component II: Incubation Fund (Supporting Agri-business Incubation Centres in institutions developing agricultural technologies).

ICAR institutes are using different IP tools to protect their intellectual assets viz. patents, trademarks, copyrights and designs. To compile these assets in a scientific manner with its regular updation at inventor level, a workflow based repository for Patents obtained/in process is made available for researchers/ policymakers.

Suggestions emerged during 28 June 2023 Meeting

- **Prepare a Technology Booklet**
- **Include one Outside IP expert (may be lawyer) in ITMC and pay their fee from ITMU Budget**
- **At least one meeting of ITMU/ITMC in a year**
- **All Copyright applications should be routed through ITMU**
- **Prepare a Leaflet on IASRI ITMU website and share with ICAR-ITMC and all ICAR-Institutes**
